

**AEGEAN REGION REFRIGERATION
INDUSTRY AND BUSINESS ASSOCIATION**

"I am not leaving a spiritual legacy of dogmas, unchangeable petrified directives.

My spiritual legacy is science and reason.

If those people who wish to follow me after I am gone take the reason and science as their guides
they will be my true spiritual heirs."

1923

ESSIAD's Vision

To be a solution providing cluster who is environmental, can easily adapt technological products and systems, saves energy in order to have a say in the world markets.

ESSIAD's Mission

To cooperate with related bodies in order to increase competitiveness of our members by forming new technological and economic platforms where our members shall benefit.

ESSIAD's Goals

- Support formation of sub- sectoral industries,
- Help members corporatise,
- Provide members with national and international business environment in order to create satisfactory competition,
- Co-operate with related bodies for corporatisation of ESSIAD and sector companies in the region and to increase their brand image,
- Co-operate with related bodies in order to avoid unfair competition and sustain the market system on common good,
- Adapt the rules of HVAC-R legislation to domestic needs in accordance with the European Union norms,
- Increase and develop cooperation awareness among cluster players,
- Perform Trainings and Education according to the needs of the sector engineers, technical personnel and workers at ESSIAD Continuous Training Center,
- Communicate with sectoral companies in order to create traineeship opportunities for engineers, technical students through "From School To Profession" Project,
- Build an accredited laboratory which will also help increasing the R&D activities,
- Increase University-Industry cooperation among sectoral companies and their works,
- Invite foreign capital for related and supporting industries among missing players of the cluster.

Why ESSIAD?

Access to sector
decision-makers and
policy-making bodies

By making more use
of **public support**
and **grant schemes**,
possibility to benefit
radical improvements
from marketing,
in **new investment**
costs

Possibility of being
together, establishing
communication and
meeting on **common**
ground with the
companies that produce
products that serve
HVAC-R sector

Possibility of presenting
institutional opinions to
state institutions for the
formation of **legislation**
and regulations and
contributing before
publishing

Being informed about
sector fairs and the fair
events, **advantageous**
participation
opportunities at
sector fairs, privilege of
participating in bilateral
business negotiations

Possibility of **benefiting**
from **EU projects**,
domestic grants and
supports

Opportunity to utilize
the activities to radically
reduce marketing
costs

Opportunity to
come together,
share information
and **transferring**
experience with
ESSIAD members

Opportunity to be
represented at
meetings such
as investment
opportunities, bilateral
business meetings,
sectoral trade
delegations

The opportunity to be
informed about the
revised regulations
and **standards** through
domestic and
international
relationships

Possibility of benefiting
from relations with
international sectoral
institutions

To be able to attend
trainings and seminars
at ESSIAD Continuous
Training Center (ESEM)

To attend **From School To Profession Project** aims to increase the employment of the vocationally trained students in HVAC-R sector

To attend **International Trade Missions** at **affordable costs**

To attend **B2B** meetings in order to **increase export** capacity

To have **product introduction** meetings

To be informed of other **Sectoral Association's** activities

Opportunity to meet with the members at **ESSIAD Lunch Meetings** and to develop cooperation

Social and cultural activities in Member Meetings

The possibility of introducing families and **strengthening cooperations** in social occasions

The possibility of **distributing** your **catalogs** free of charge at the sectoral **fairs**

With the monthly **digital bulletin**, via internet and web site the opportunity to reach approximately **3.000 people**

Through the distribution network and the organizations of ESSIAD, it is possible to publish **advertisements** and **news with a magazine** reaching approximately **10.000 people annually**

The opportunity to **participate** in **Membership Promotion Catalogs** free of charge that has distributed **2.500pcs** and regularly updated, where promotions of ESSIAD members are included

Ongoing Projects

Continuous Training Center

From School to Profession

About Izmir

Located in the west of Türkiye and on the Aegean shores, Izmir, the pearl of the Aegean, is the third largest city in Türkiye. With its 8.500 year history, fertile land, favorable climate, 629 km coastline, 300 sunny days a year, a sea that offers every shade of blue and the heritage left behind by the 32 civilizations it has been a home to, Izmir is ready for you to discover.

Izmir, the second largest commercial center of Türkiye, offers the investors a wide range of production opportunities; combines rich natural resources with quality life standards; and promises economic and social competitive advantage.

Special Investment Zones

There are three types of special investment zones offering various advantages for different types of investments.

Organized Industrial Zones

Ready Infrastructure
Extra Benefits in
Investment Incentives
For Manufacturing Companies
One Stop Shop Services

Free Zones

Ready Infrastructure
Tax-free Trade
For Manufacturing Companies
One Stop Shop Services

Technology Development Zones

World Class Office Spaces
R&D and Innovation
Special Incentives
for R&D Projects
University Infrastructure
and Cooperation

By hosting **16 Organized Industrial Zones**,
3 Free Zones and **5 Technology Development Zones**,
Izmir offers an ideal investment environment and infrastructure to investors.

Izmir is taking share of 4.1% within total imports and 6.66% within total exports in Türkiye, thanks to having more than 4500 export companies and \$22 billion foreign trade volume

With its strategic location in the middle of Europe and Asia, Izmir provides easy access to a market of a population of 1.5 billion, \$25 trillion GDP and \$8 trillion trade

With 16 Organized Industrial Zones, 5 Technology Development Zones and 3 Free Zones, Izmir offers an ideal investment environment and infrastructure to the investors

With a population of over 4.4 million, 42% of which is under 30, and young spirit, Izmir is one of the most productive cities in Türkiye

Izmir is one of the most modern and peaceful cities in Türkiye with a vibrant social life enlivened by cultural events, tourism opportunities and local cuisine

Thanks to the educational opportunities and the importance placed on science and technology, Izmir is one of the most favorable locations in the Mediterranean Region to conduct research and development studies

Best location choice for foreign direct investments with a total number of 2,823 companies and annual 140 new investments export companies

Green Growth and Blue Growth are main focus areas defined by Izmir Development Agency, which creates an eco-friendly vision to the business side in Izmir

Izmir as an Industrial City

Favorable demographics with a dynamic, young and skilled labor force supporting the industry.

Global machinery companies have been present in Türkiye with significant manufacturing activities, using Türkiye as a hub to access regional markets.

World scale domestic demand and strong industrial base offer ample investment opportunities in agricultural machinery, construction and mining machinery, energy equipment, food processing and packaging machinery, HVAC-R, lifting and handling equipment, metalworking and machine tooling, pumps and compressors, textile machinery.

**There are various clusters in Izmir,
among which the sectoral cooperation is well-developed.**
